FOR OWNERS WHO DO THE CHASING

5 signs you are the middle of your business

SWIPE →

See everything. Chase nothing.

1

You are the memory

Work goes out when you remember. Some of it, never.

2

You are the follow-up department

Calls and messages all day, just to ask: is it done?

3

New work lands on you

A notice, a renewal, a one-off. Nobody owns it until it is late.

4

You find out last

You hear what slipped from the client.

5

Everything waits for you

Small questions, all day. Each one needs you now.

Each one is small. Together they are your whole job.
