BEFORE YOU SIGN ANYTHING

Whose data is it? 4 questions to ask any vendor

SWIPE →

1

Where does my data live?

In their system, or in yours?

2

Can I leave any time?

And take everything with me, in a form I can use?

3

Who can see it?

Only the access you give, and you can remove it.

4

What am I paying for?

The working layer on top, or access to my own data?

Our answer

- Your data lives in your own Google Sheet or database
- We set up the working layer on top: assigning, reminding, scoring, dashboards
- Leave any time. Your data stays exactly where it is

You own the data. We keep it working.

30 minutes on Zoom. You see one live system.
